

You are encouraged to start a conversation with your financial advisor.

F.L.Putnam Investment Management Company (FLP) is registered with the Securities and Exchange Commission as an investment adviser. Brokerage and investment advisory services and fees differ, and it is important for retail investors to understand the differences. There are free, simple tools available to research firms and financial professionals at [Investor.gov/CRS](https://investor.gov/CRS), which also provides educational materials about broker-dealers, investments advisers, and investing.

**What investment services and advice can you provide me?**

- FLP offers investment advisory services to retail investors. These services include customized portfolio management, portfolio management via model manager programs that use our select strategies, portfolio management via an automated investment platform, financial planning and financial consulting.
- For discretionary investment advisory clients, we manage individually tailored investment accounts and monitor those accounts on a continuous basis. These services are offered as part of your standard services.
- If you select discretionary customized portfolio management, we will accept discretionary authority to determine which securities and the amounts of securities that are to be bought or sold for your account(s) until you terminate this authority by notifying us in writing. You may impose reasonable limitations on this discretionary authority and change/amend these limitations as desired by notifying us in writing. We will exercise the discretionary authority you grant us any time we decide to change the holdings in your account in accordance with your outlined investment objectives. You make the ultimate decision regarding the purchase or sale of investments when a non-discretionary portfolio management service or portfolio consulting service is selected.
- We do not make available or offer advice with respect to proprietary products. We do not limit investment options for customized portfolio accounts but will mostly invest client accounts in equity and fixed income securities. Automated investment platform clients will be invested exclusively in exchange-traded funds (ETFs) available on the platform. Client portfolios using a model manager program have limited customization for specific financial and nonfinancial constraints, and clients using the model manager program are not able to purchase foreign securities or individual bonds as we typically purchase for our customized clients. Once subscribed, accounts are invested in the same securities that are held in the model portfolio at the same percentage levels.
- Our minimum account size for non-platform discretionary investment advisory accounts is \$250,000. Our minimum relationship size for non-platform discretionary investment advisory accounts combined with financial planning services is \$750,000. Minimum account sizes and/or minimum annual fees, if any, for model manager programs vary depending on which program is selected. A minimum investment of \$5,000 is required to open an automated investment platform portfolio and we make these portfolios available only to select account types.
- More detailed information about our services can be found in our *Form ADV Part 2A*, including Items 4 and 8, which is posted on our website and on the Investment Adviser Public Disclosure website <https://www.adviserinfo.sec.gov/IAPD/default.aspx>.

**CONVERSATION STARTER**

- Q: Given my financial situation, should I choose an investment advisory service? Why or why not?*
- Q: How will you choose which investments to recommend to me?*
- Q: What is your relevant experience, including licenses, education and other qualifications? What do these qualifications mean?*

**What fees will I pay?**

- The specific way and amount of advisory fees are charged by FLP is established in your written agreement.
- The annual fee for customized portfolio management services will be based on the amount of assets under management. Our standard fee schedule is located in the box to the right.
- Automated investment platform accounts and model manager program accounts will be charged at a flat 0.60% of assets under management by our firm. Total fees for model manager programs vary depending on the program.
- Customized portfolio management fees are typically directly debited from the designated client account quarterly in advance at the end of each calendar quarter based upon the value of the client's account at the end of that quarter. The manner in which fees are charged and/or debited for model manager programs or automated investment platforms varies depending on the program. Financial planning services are provided based upon hourly fees (currently \$200.00/hour), or a fixed fee typically ranging from \$1,500 to \$15,000, as agreed with each client.
- Financial consulting fees are negotiated separately with each client and typically charged in advance.

Annual Fee Rate	Total Assets in Client's Accounts
1.00%	On the first \$2 million
0.85%	On the next \$3 million
0.725%	On the next \$5 million
0.60%	On the balance

**What fees will I pay? *Continued***

- Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses that you incur. You may incur charges imposed by custodians, brokers, and other third parties such as fees charged by managers, model program sponsors, custodial fees, account maintenance fees, product-level fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and ETFs also charge internal management fees or distribution fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fees.
- The more assets there are in your advisory account, the more you will pay in fees, and our firm may therefore have an incentive to encourage you to increase the assets in your account.
- You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amounts of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. More detailed information about our fees and other costs can be found in our *Form ADV Part 2A*, including Item 5, Item 6 and Item 12.

**CONVERSATION STARTER**

*Q: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

**What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?**

When we act as your investment advisor, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means:

- We pay referral fees to third parties for referring advisory clients to our firm. Payment of referral fees creates a conflict of interest because such referrals may not be unbiased and, at least, partially driven by a financial incentive.
- Certain broker dealers and/or custodians send us client referrals for compensation. Consequently, we have an incentive to recommend these broker dealers and/or custodians to our clients and utilize them for the implementation of account transactions.
- The benefits we receive through participation in programs administered by custodians/brokers selected by you, including research, may depend upon the amount of transactions directed to, or amount of assets custodied and may benefit you or us exclusively.
- More detailed information about our conflicts of interest can be found in our *Form ADV Part 2A*, including Item 5, Item 10, Item 12 and Item 14, which is posted on our website and on the Investment Adviser Public Disclosure website <https://www.adviserinfo.sec.gov/IAPD/default.aspx>

**CONVERSATION STARTER**

*Q: How might your conflicts of interest affect me, and how will you address them?*

**How do your financial professionals make money?**

- Our financial professionals are compensated based on a combination of some or all of the following factors: base salary and bonus, which is determined based on the net income of our firm. Certain sales professionals may be additionally compensated based on delivered assets.
- Depending on the specific employee's compensation structure, additional assets under our firm's management and management fees paid by clients may result in direct or indirect increase in that employee's overall compensation, including, but not limited to, discretionary bonus, if any.

**Do you or your financial professional have legal or disciplinary history?**

No. You may visit [Investor.gov/CRS](https://www.investor.gov/crs) for a free, simple search tool to research us and our financial professionals.

*You are encouraged to start a conversation with your financial advisor.*

*Q: Who is my primary contact person? Is he or she a representative of an investment advisor or a broker dealer? Who can I talk to if I have concerns about how this person is treating me?*

You can find additional information about our investment advisory services in our *Form ADV Part 2A*, on our websites at <https://www.flputnam.com/>. You may request up-to-date information and/or a copy of our relationship summary by calling (800) 356-1781.
